Humble Hostel

A Small Space that Given Back to the Courtyard

1. Welcome to Humble Hostel prototype.

2. Because of the limited space, the bed is only 1.9 meter long.

6. The courtyard hostel prototypes are still developing, we will have 3 more guesthouses with supported facilities in this courtyard.

3. As you will be living with the local people in the same hutong courtyard, be humble and good communication is very important, for instance karaoke in the night might be a bad idea.

We will try to establish a good relationship with the neighbors while we developing this project. A lot of the construction procedures need to discuss with the neighbors, one of the problems right now is the north side shelter kept out the sunshine, you are welcomed to stay longer and work out the solution with us.

4. The space of the room is adjustable, the reduced space can be given back to the courtyard, you can use it as:

a . A tearoom?

Treat your neighbor a cup of tea and have a little chitchat.

a . Be careful when climbing up to the upper bed.

b . A playroom?

Prepare some chess or poker card for the neighbors.

b . No smoking in the room.

c . Calligraphy club?

There is one neighbor who is interested in calligraphy, maybe you can make some room for him to practice.

c . As the room was reconstructed based on an old house, please pay attention to the possible quality issues, and let us know promptly.

d . A small exhibit space or even a small movie theater? ...

d . As the courtyard toilet is not completed yet, please use the hutong public toilet instead, for emergency cases use the toilet inside the room, but pee only.

5. You are welcome to explore more uses of the expanded courtyard space, such as some small interactive activities with the neighbors, let us know and we'll figure something out.

e . The fire extinguisher is used for emergency only.
